### Superintendent's Highlights

The district achieved annual yearly progress (AYP) as defined by the state for the 02/03 school year. Idaho Reading Indicator (IRI) goals as set in Idaho Code are being met.

The district has come within 20 votes in the last two elections of passing a much needed bond to build a 9-12 facility. The district will attempt a bond again in August of 2004.

The district is in the process of completing a Sequencing Batch Reactor (SBR) waste water treatment system. Due to the fact that there is no city sewer system in the Garden Valley area, the district has had to construct its own system to handle waste. Currently the district operates on 5 septic systems and has an additional 6 abandoned drain fields on site with no Central District Health approved sites remaining. The new SBR will relieve the district of the worry of a failing septic system. The SBR was paid for with 25% grant funds and 75% district funds saved over the past 7 years.
